
On-Demand Post-Event Quiz

In the future, healthcare will be most successful if appointments:

- Are conducted primarily face-to-face.
- Are conducted primarily in a virtual format.
- Are offered both virtually and face-to-face.

Which of the following is NOT a part of conducting a telehealth session:

- Determine patient's/client's privacy.
- Identify their middle name.
- Request their location and telephone number.
- Attitudes.

When conducting a telehealth session, it is best if patients/clients:

- Sit close to the camera so you can vividly see their facial expressions.
- Sit back away from camera where you can see most of their body.
- Put the light source behind them.
